

TREASURES ON CAMPUS

2021.11- continuing

Service providers in campus/ Students/ Co-work/ Community bond

BACKGROUND

REPAIR SHOP

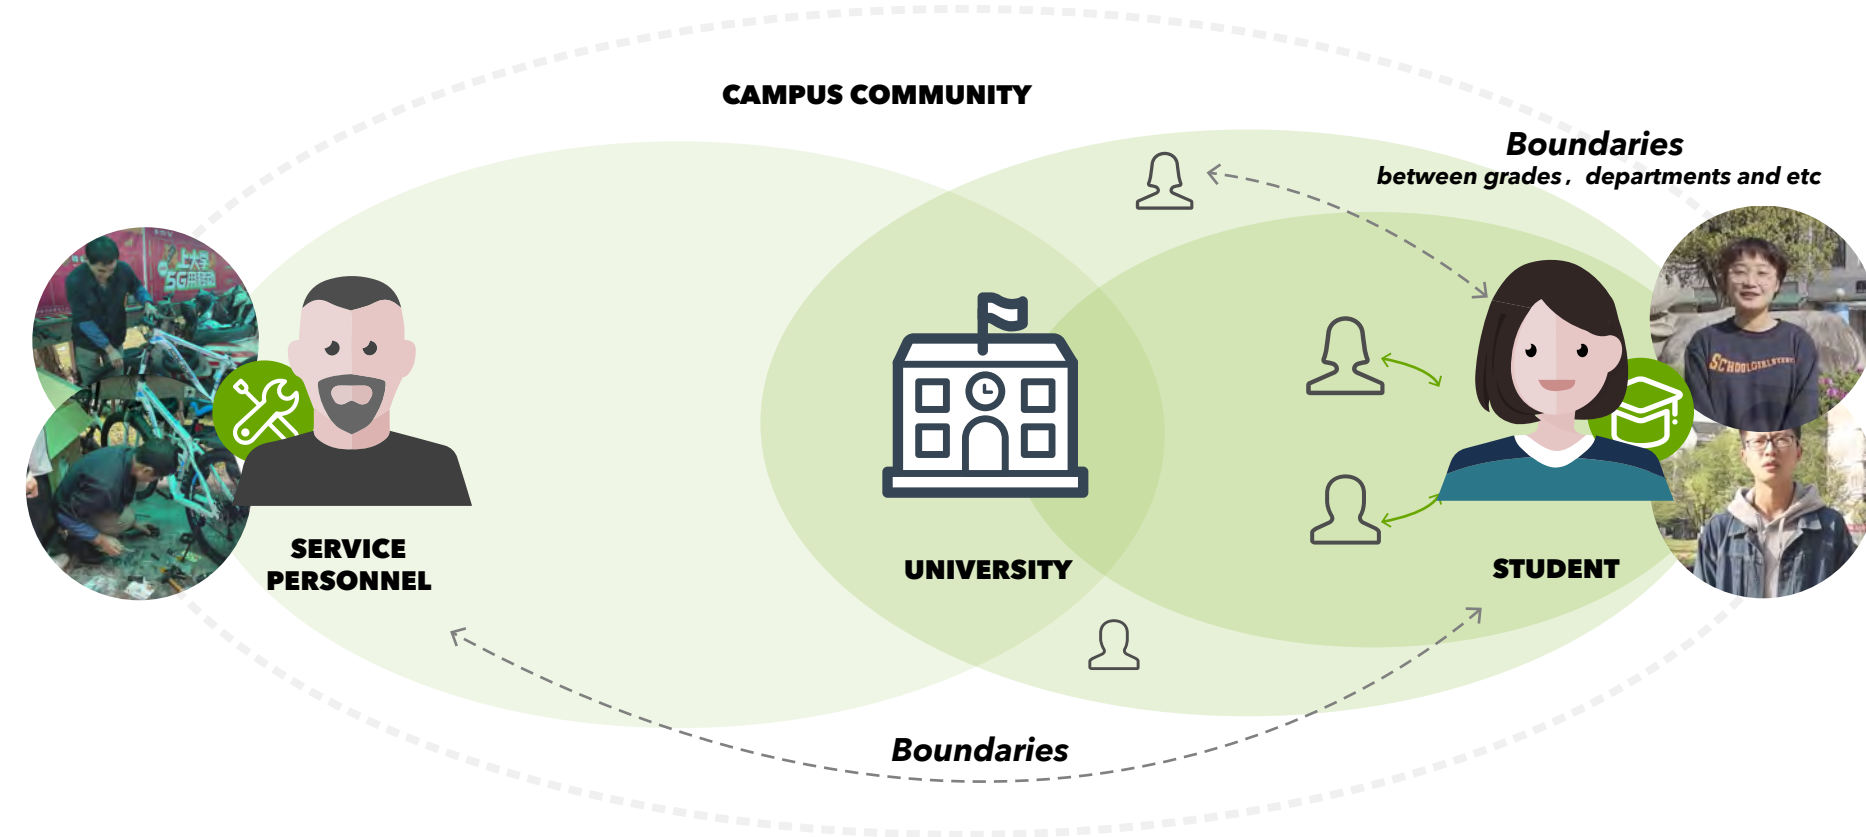

Located under the eaves of a dormitory in my undergraduate campus, the repair shop has no shopfront, and all the tools are placed on the ground. In my view, the working environment isn't delightful, and the repairman has worked here for nine years, *every student know him but only a little*. So I got curious and decided to interview him.

INTERVIEW&INSIGHTS

I found that the repairman works on campus because he likes to chat with people in the chat. But, his free time is rather dull and lonely. It made me realize that he and *many service personnel in the university are constantly ignored in campus activities*, although they are indispensable members. And *so do us, students, sometimes, limited by different colleges and information channels*.

We don't fully understand the campus we live on and what's happening here.

SO, HOW CAN WE GET EVERYONE ACTIVELY INVOLVED IN THIS COMMUNITY?

IDEATION

how to break the boundary

Put all the information together
make them open to everyone

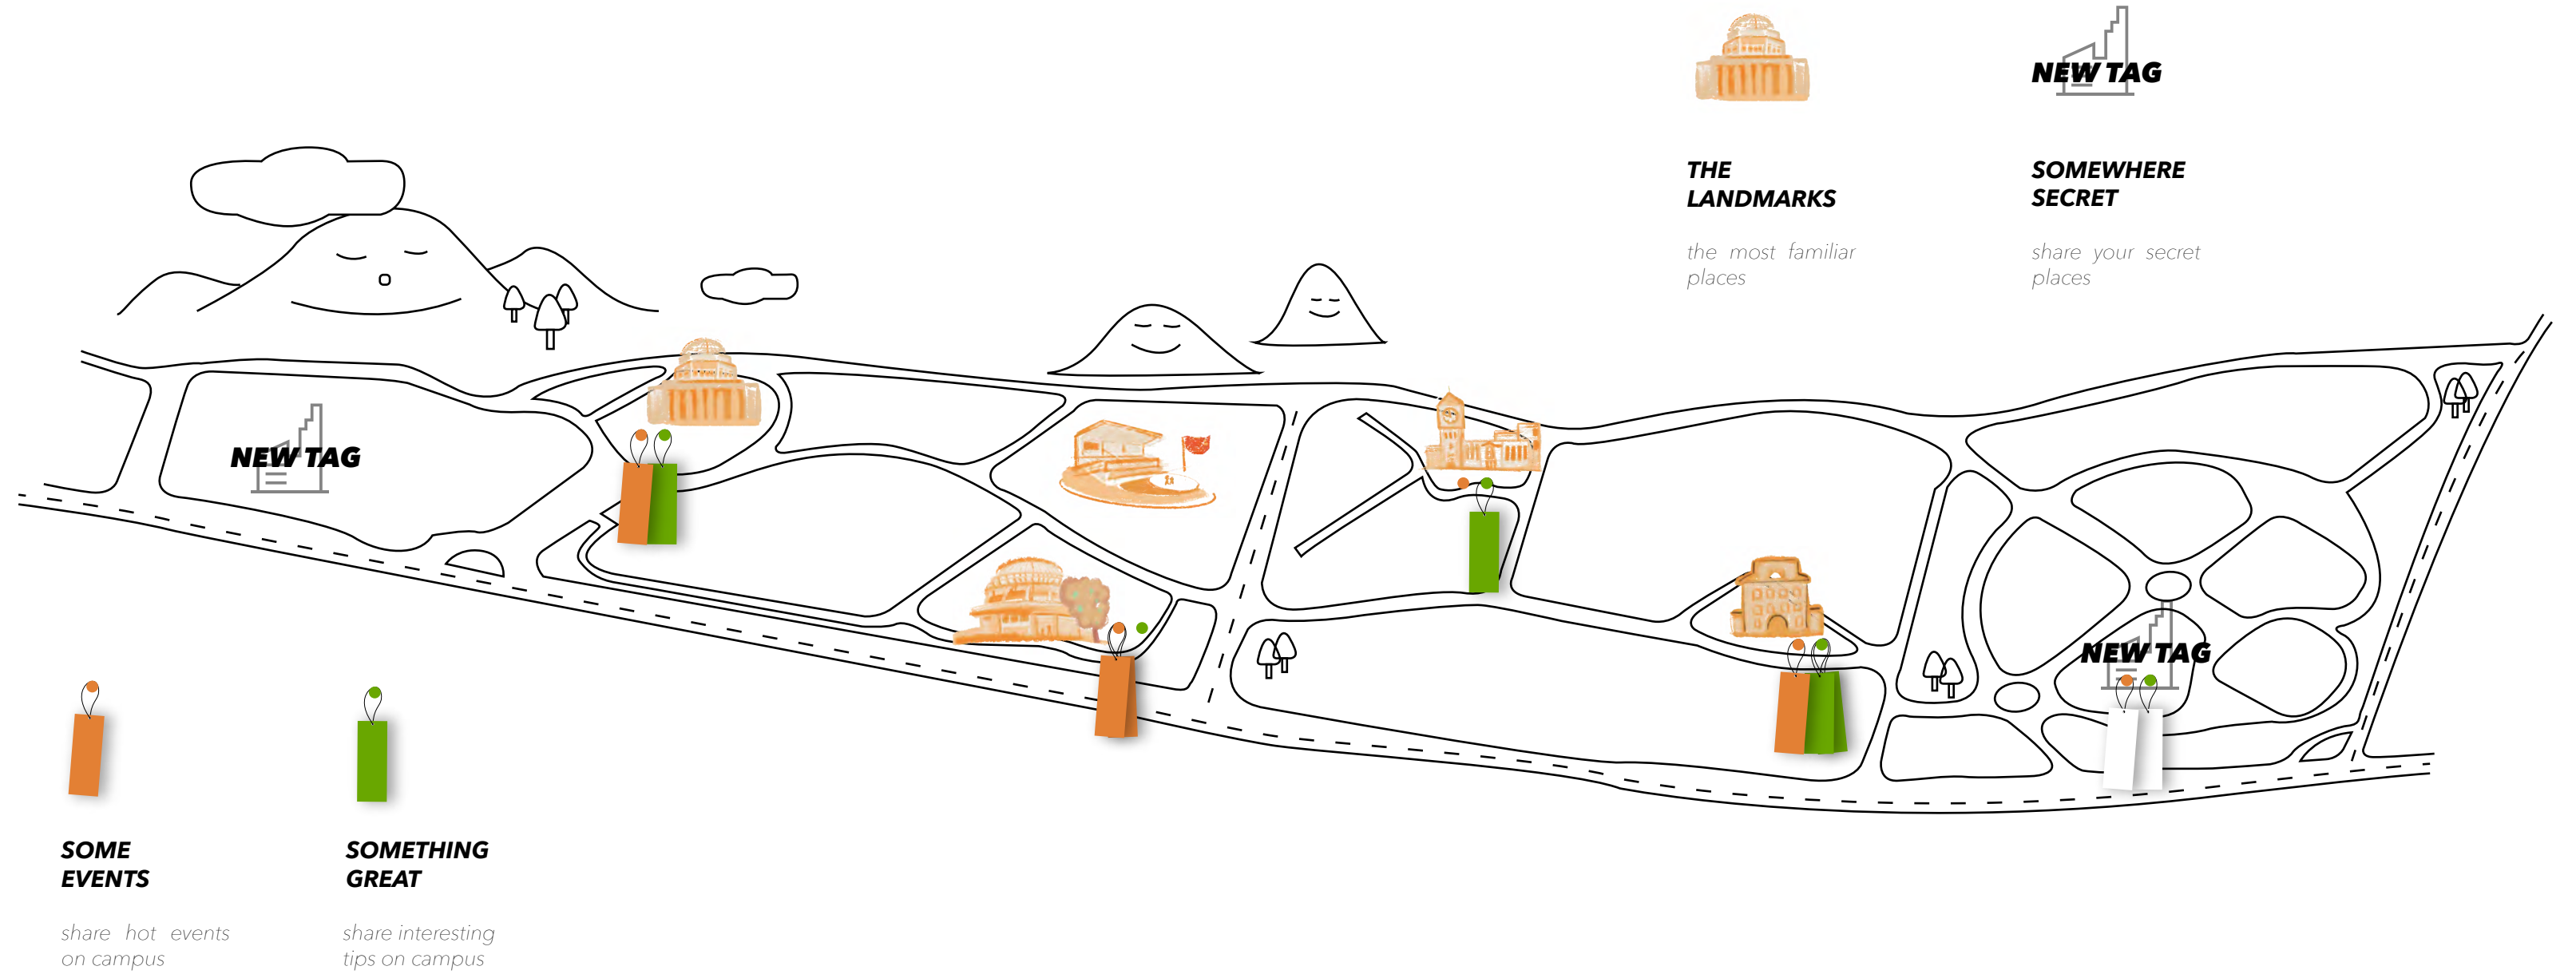

map

Maidier López How do you live this place?

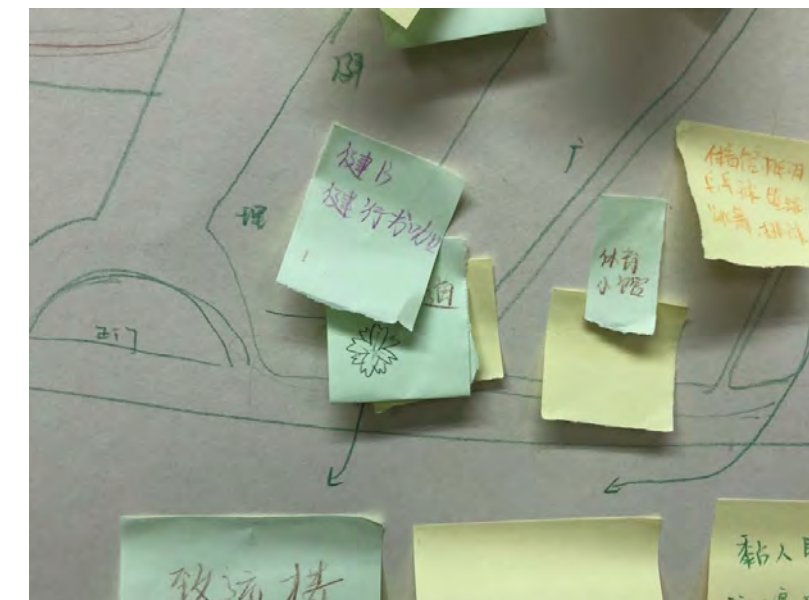

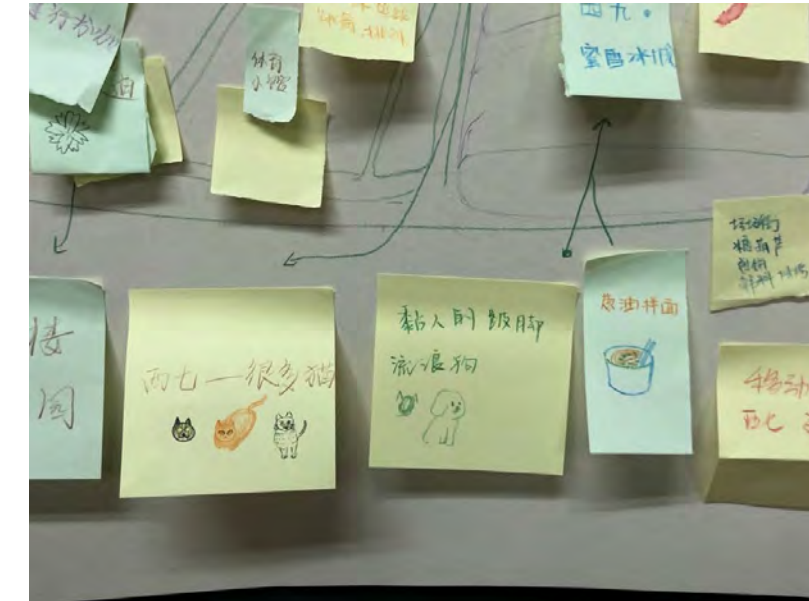

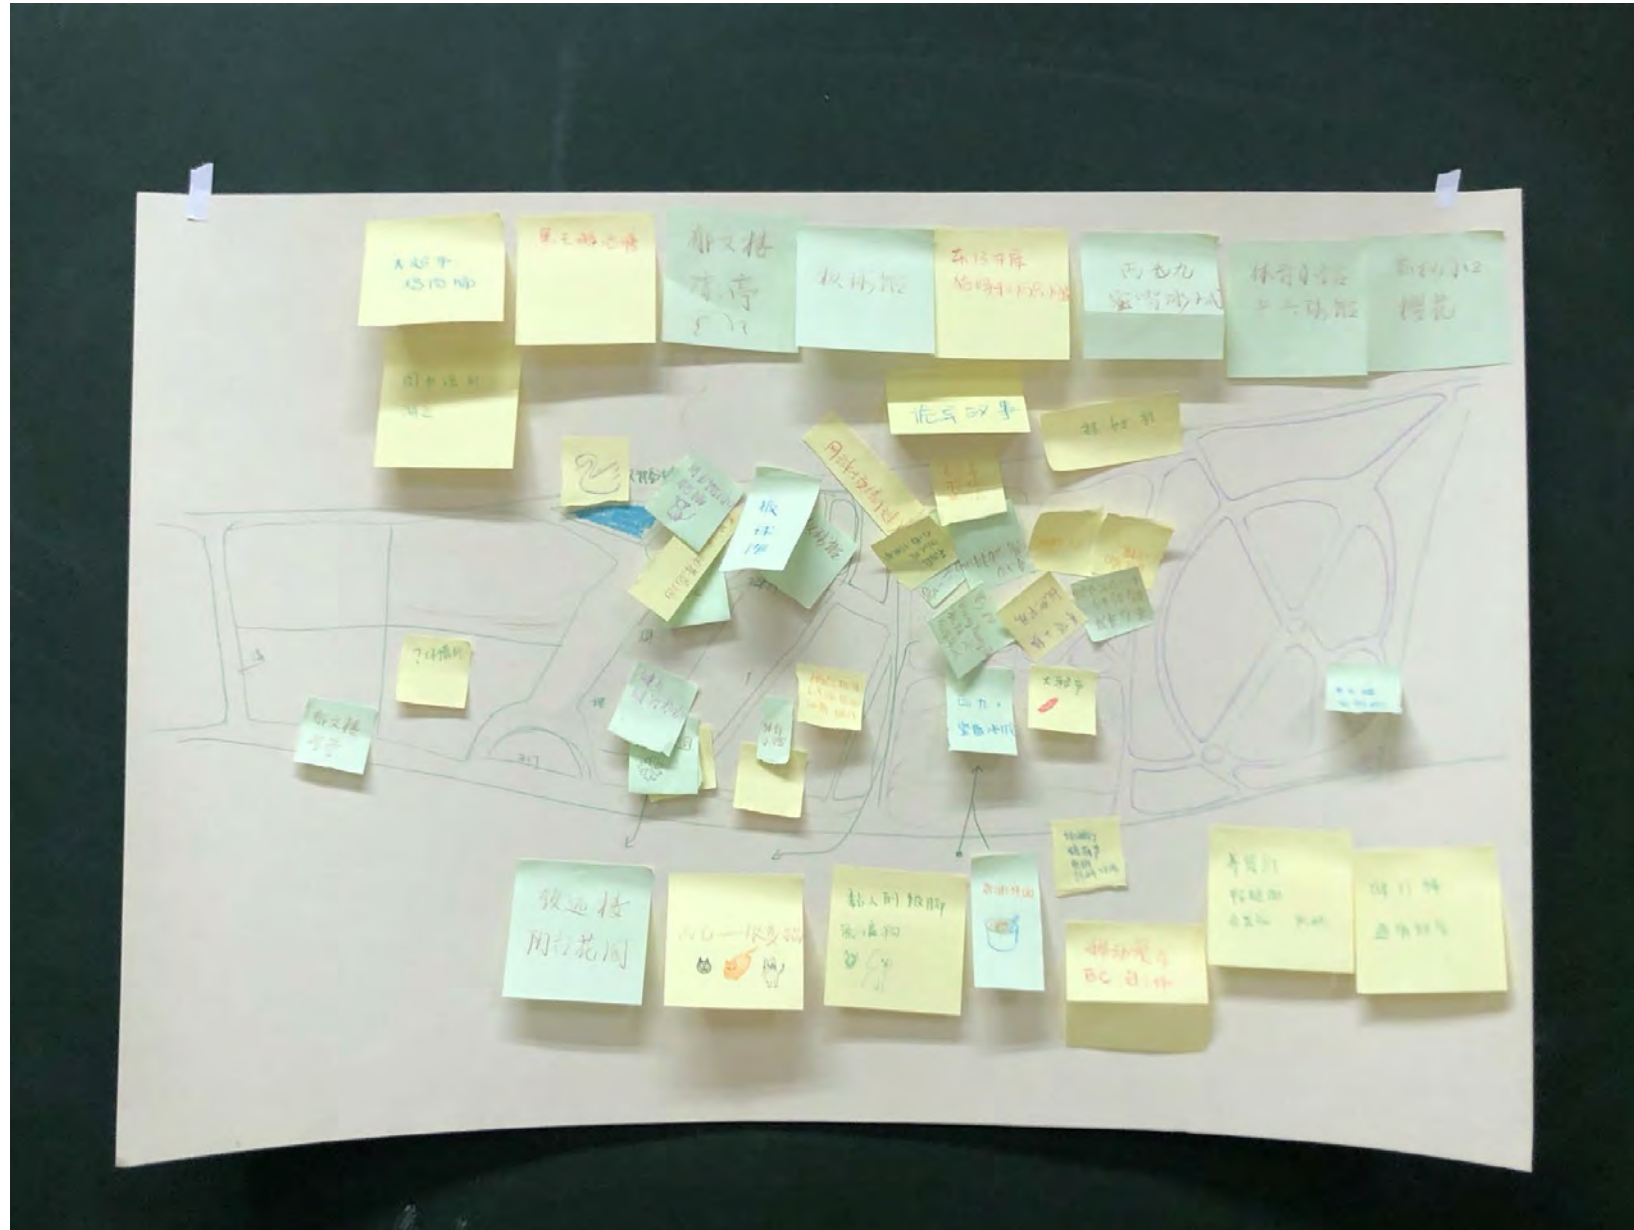

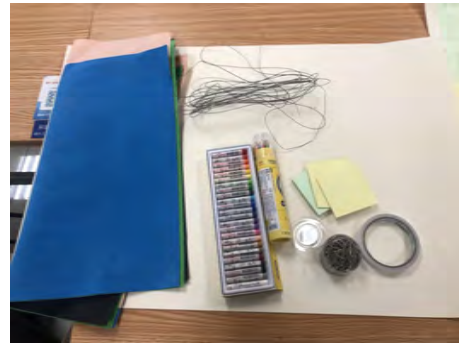

allow people to offer and receive information easily

CONCEPT

WORKSHOP

Four students were invited to participate in this workshop. *We drew the first version of the map through memories and discussions.*

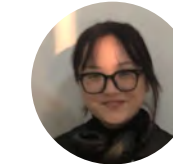

IMPRESSIONS

living for 5 years

"It's **delightful to chat with schoolmates about our campus** in this way. I recalled a lot and **gained a new understanding of this 'familiar' campus.**"

living for 5 years

"I used to believe I knew the school very well, which I found it's not true during this event. Also, I realized that **what I am familiar with is only a small area, and there are other places to be explored.**"

living for 3 months

"I have just come here, so I am still very curious about everything about the campus. And I am pleased to **gain so much interesting information** in this event."

living for 3 months

"I have only been here for a few months, but I like to walk in school, which allows me to know many great places others do not know. I'm **glad that I can share that with people.**"

AFTERWARDS

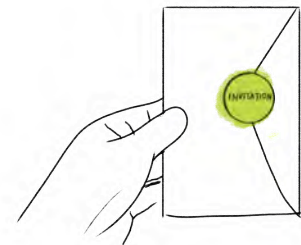

By **collaborating with them**, I'm planning the **hold a standing event on school-wide**. And turn into a standing if possible.

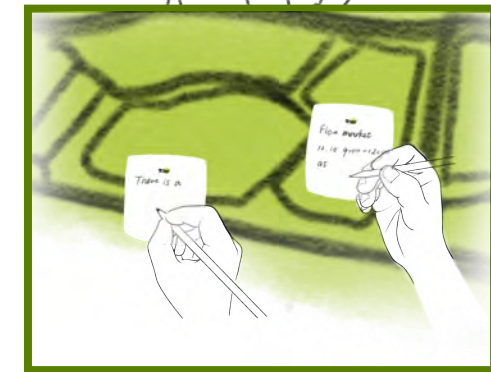

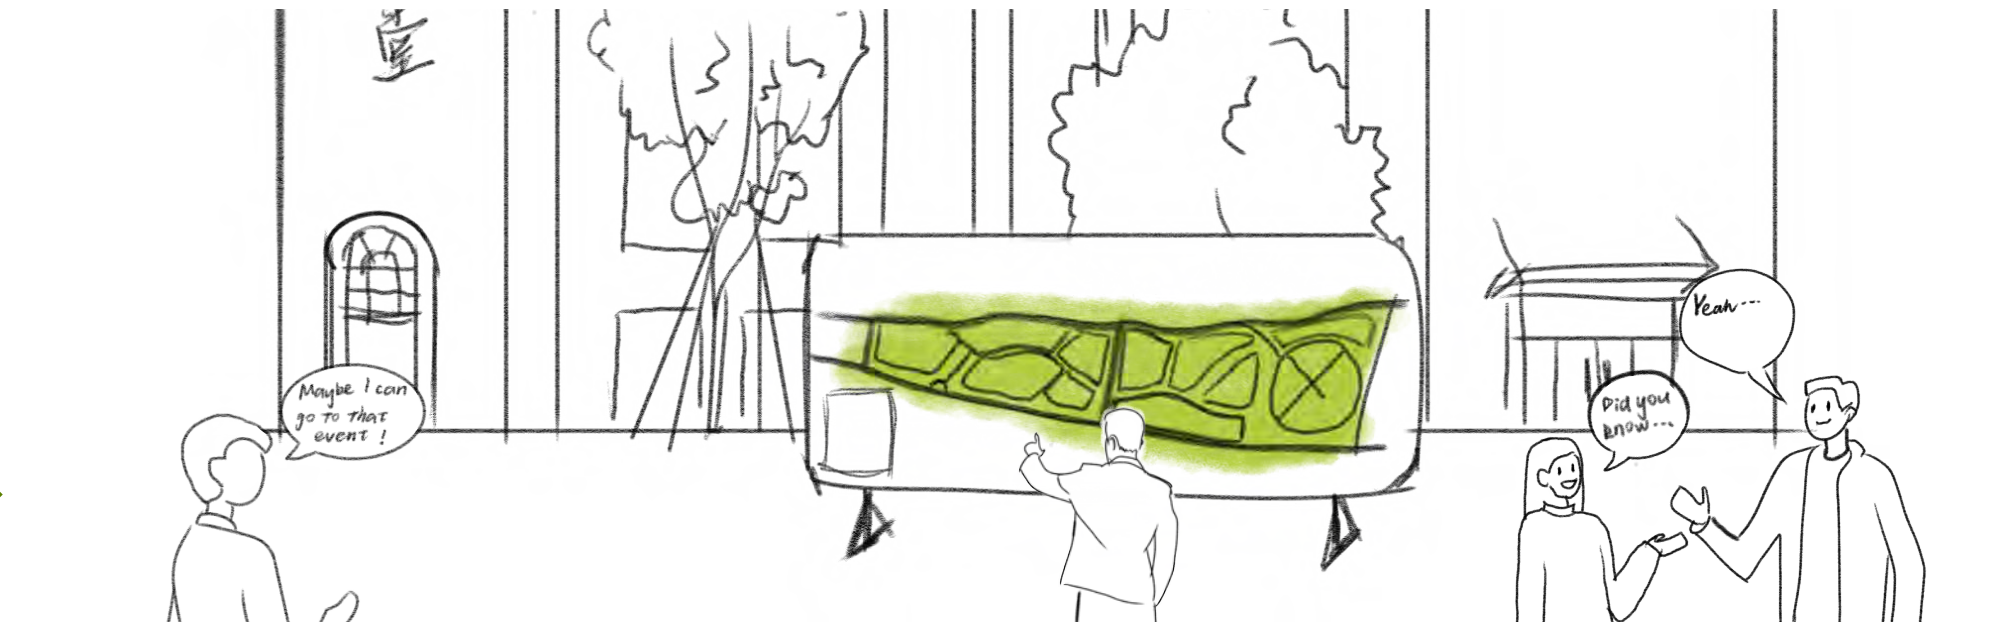

Impression of ZJUT

An students association working for the school's promotion

INVITE STUDENTS & SERVICE PERSONNEL (PARTICIPANTS)

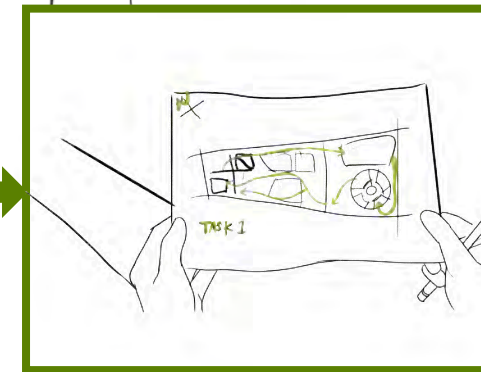

PUT IT IN FRONT OF THE CANTEEN

Participants offer information about activities

Participants receive information

Participants explore the campus

The association launch periodicals
